## Quiz Instructions

[Watch the movie Michio Kaku: The Universe in a Nutshell](https://bigthink.com/videos/universe-in-a-nutshell-the-physics-of-everything-with-michio-kaku/)  (<https://bigthink.com/videos/universe-in-a-nutshell-the-physics-of-everything-with-michio-kaku/>)

Watch the video and answer questions

(you can find the video on youtube)

### Question 1 6.25 pts

If I drop a book and a paper from the same height on the Moon  
(no atmosphere = no air resistance) :

☐

The book reaches first

☐

They both reach the Gnd at the same time

☐

The paper reaches first

☐

It depends on the height.

### Question 2 6.25 pts

who developed general relativity

☐

Isaac Newton

☐

Michael Faraday

☐

James Maxwell

☐

Albert Einstein

### Question 3 6.25 pts

The scientist who figured out how to produce (alternating) electricity using magnetism

☐

Galileo Galilei

☐

James Joule

☐

Michael Faraday

☐

Isaac Newton

**Question 4 6.25 pts**

The scientist who developed the universal law of gravitation

☐

Isaac Newton

☐

Aristotle

☐

Galileo Galilei

☐

Michael Faraday

**Question 5 6.25 pts**

Is the Moon falling toward the Earth (according to scientist from Q4):

☐

no because gravity can not reach out the Moon

☐

I didn't watch the video

☐

yes but never reaches the Earth because of its initial velocity

☐

The Moon does not fall. Its not a gieant apple

**Question 6 6.25 pts**

Following Q4. The Moon is in \_\_\_\_\_ fall

☐

parabolic

☐

free

☐

orbital

☐

hyperbolic

**Question 7 6.25 pts**

The scientist who is credited for calculus is:

☐

Michael Faraday

☐

Isaac Newton

☐

James Hook

☐

James Maxwell

**Question 8 6.25 pts**

Comets are moving at a perfect:

☐

parabola

☐

exponential

☐

straight line

☐

ellipse

**Question 9 6.25 pts**

Newton wrote the most important book in Physics called

☐

Newton's law

☐

principia

☐

Law of universal gravitation

☐

Classical mechanics

**Question 10 6.25 pts**

Today to launch a space probe you use:

☐

Einstein's relativity

☐

Newton;s law

☐

Maxwell's equations

space exploration is a hoax

### Question 11 6.25 pts

During a thunderstorm you will be protected from lightning in your car. Such a structure is called a

worm hole

Faraday's cage

Einstein's box

Newton's safe

### Question 12 6.25 pts

Maxwell's equations show that

regardless of their mass, all object move at the same rate

force is mass times acceleration

The fabric of space is curves by masses

electromagnetic waves move at the speed of light

### Question 13 6.25 pts

According to special relativity the faster you run the \_\_\_\_\_ you get.

heavier

cooler

IDK

hotter

### Question 14 6.25 pts

A short cut through time and space is called:

A short circuit

quantum tunnel

☐

a worm hole

☐

a black hole

### Question 15 6.25 pts

The universe is expanding. So it is getting

☐

cooler

☐

the universe is collapsing under gravity

☐

it is not expanding

☐

warmer

### Question 16 6.25 pts

The universe is mostly made of: (95%)

☐

green iguana

☐

worm holes

☐

simple matter like planets, stars, gas, BH

☐

dark energy and dark matter
